5 - Adamite

# Overview:

# Table:

All exercises			
Exercise	Levels	Concepts	Blocks Used
Fun with Basics	10/10	Sequence, Algorithmic Thinking	120
Loopy Loops	9/12	Loops, Debugging	123
Conditional Crops	8/12	Conditional Statements, Pattern Recognition	150
Dog and the loops	8/8	Loops, Variables, Functions	136
Swamp conditionals	4/4	Conditional Statements, Loops, Variables, Sequence, Events, Functions, Decomposition, Algorithmic Thinking	80

# List of Concepts:

## Decomposition

Breaking down a problem into smaller, more manageable parts.

# Pattern Recognition

Identifying similarities or patterns within problems.

Computational Thinking Concepts

# Abstraction

Simplifying complex problems by focusing on essential details and ignoring unnecessary information.

Computational Thinking Concepts

# Algorithmic Thinking

Developing step-by-step instructions or rules to solve a problem.

Computational Thinking Concepts

# Sequence

Understanding and writing instructions in a specific order.

Programming Concepts

# Variables

Introducing the concept of containers for storing information.

Programming Concepts

# Loops

Repeating a set of instructions multiple times.

Programming Concepts

# Conditional Statements

Making decisions in the program based on certain conditions.

Programming Concepts

# Events

Reacting to user inputs or specific occurrences in the program.

Programming Concepts

# Functions

Creating reusable blocks of code to perform specific tasks.

Programming Concepts

# Data Types

Introducing the idea of different types of data, such as numbers, text, and Boolean values.

Programming Concepts

# Input and Output

Understanding how programs receive information (input) and produce results (output).

Programming Concepts

# Debugging

Identifying and fixing errors or mistakes in the code.

Programming Concepts

# Comments

Adding explanations and notes within the code for better understanding.

Programming Concepts

# Event Handling

Responding to events triggered by user actions or other parts of the program.

Programming Concepts

# Graphics and Animation

Introducing basic concepts of drawing and creating movement in a program.

Programming Concepts

# Simulation

Creating virtual scenarios to model real-world situations.

Programming Concepts

# Collaboration

Encouraging teamwork and sharing of code with others.

Programming Concepts

# Iteration

Repeating a set of instructions or a process.

Programming Concepts
